

RPA Redevelopment Gloucester House Forecourt construction works may generate some noise over the coming days.

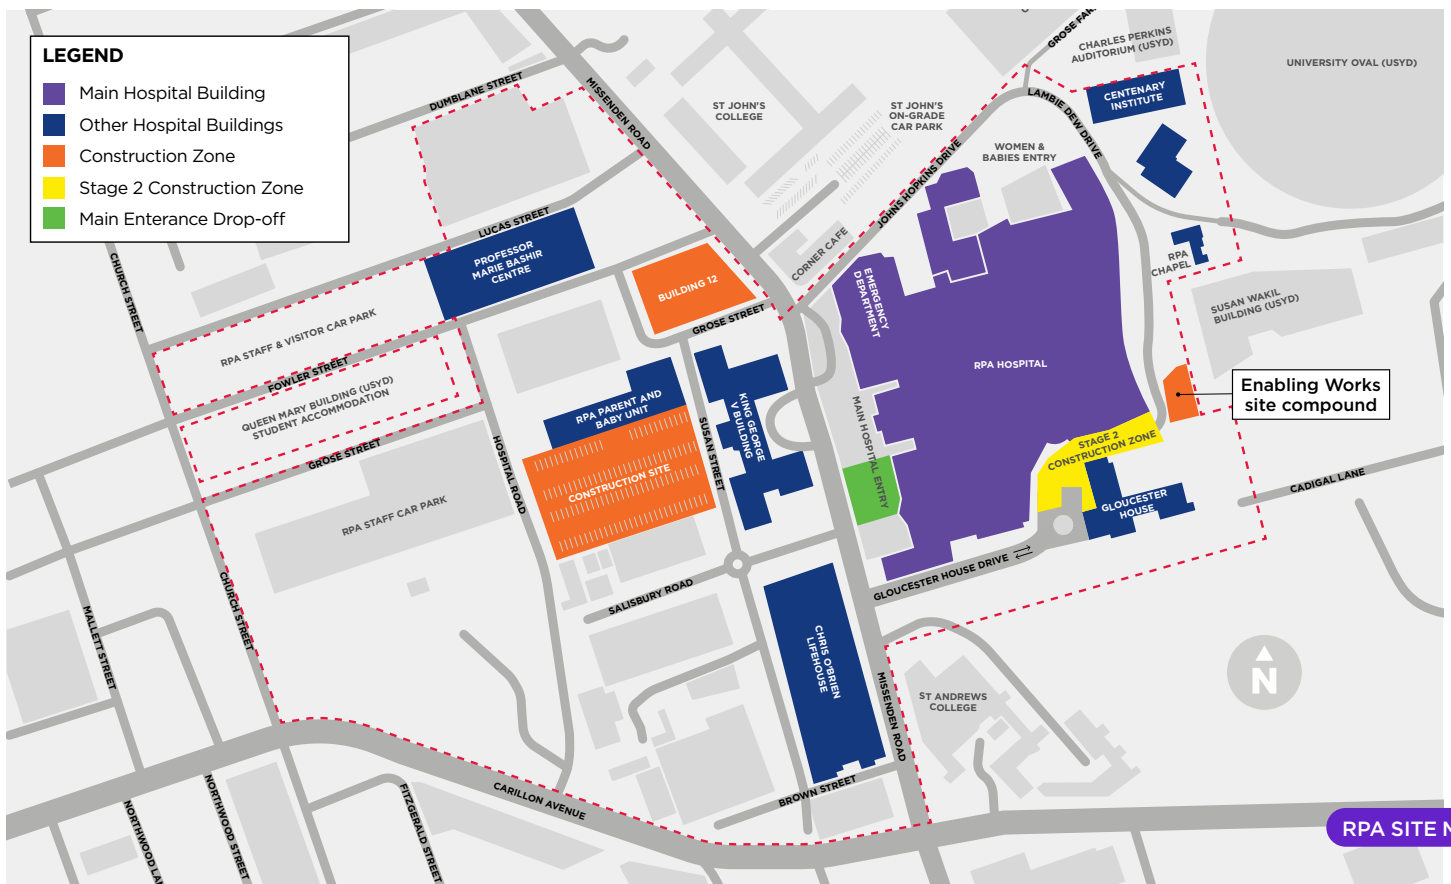

Between 8am to 3pm on Thursday, 16 March through Tuesday, 21 March 2023 (excluding weekends) , you may notice increased noise and vibration from works taking place on Gloucester House Bridge.

These works are required to ready the campus for main works construction.

To keep noise to a minimum, our builders will work in intermittent periods and use hand tools where possible, however some impact will be unavoidable.

The health, safety and well-being of patients, staff, neighbours and community is our highest priority. For any queries relating to this work, please contact the Redevelopment Team using the contact details below.

Thank you for your patience and cooperation during these important works.

How can I contact the project team?

If you have any questions or would like more information please contact our project team at the details below.
